Suppl. Fig. 1: Asc I PFGE pattern of *L. monocytogenes* serotype 4b strain (set-A, 28 strains)
Suppl. Fig. 1 continued: *Apa* I I PFGE pattern of *L. monocytogenes* serotype 4b strain (set-A, 28 strains)
Suppl. Fig. 1 continued: Asc I PFGE pattern of *L. monocytogenes* serotype 4b strain (set-B, 28 strains)
Suppl. Fig. 1 continued: Apa I PFGE pattern of *L. monocytogenes* serotype 4b strain (set-B, 28 strains)
Supplementary Figure S1: AscI and ApaI PFGE patterns of the *L. monocytogenes* serotype 4b strains. To confirm that the majority of the *L. monocytogenes* serotype 4b strains present across India are clonal, 56 additional serotype 4b strains were subjected to PFGE, and 39 of these strains exhibited the Ind-4b-dom-pulsotype (marked in red).
